## Recombinant Porcine (pig) IL-1Ra Protein, HEK293 Lysate

**Catalog Number:** 230-10333-100

**Data Sheet / Certificate of Analysis (CoA)**

Last Revised: 11/26/2024

### Source

---

<b>Species</b>	Sus scrofa
<b>Accession Number</b>	Q29056
<b>Gene Symbols</b>	IL1RN
<b>Synonyms</b>	Interleukin-1 receptor antagonist protein, Interleukin 1 Receptor Antagonist, IL1 Inhibitor, ICIL-1RA, IL-1RN, IL-1ra, IL1RA, IL1F3, IRAP, Intracellular Interleukin-1 Receptor Antagonist (IcIL-1ra), Intracellular Interleukin-1 Receptor Antagonist, Intracellular IL-1 Receptor Antagonist Type II, Type II Interleukin-1 Receptor Antagonist, Anakinra, IL-1ra3, MVCD4, DIRA.
<b>Expressed Region</b>	His26-Gln177

### Preparation

---

<b>Expression System</b>	HEK293 cells
<b>Tag</b>	N-terminal his-tag
<b>Purity</b>	Unpurified cell lysate. HEK293 cells transfected with expression vectors harboring target gene were harvested and washed with PBS twice. The cell pastes were re-suspended with ice-cold PBS containing mammalian cell protease inhibitor cocktail and further lysed with freeze-thaw cycles. After clarifying with 20,000 g centrifugation at 4°C for 30 min, the lysate was aliquoted, lyophilized, and stored at -80°C immediately. Protein concentration was determined by BCA kit (Thermo Scientific, Inc.) using BSA as protein standard. The gene overexpression in lysate was confirmed by Western blotting using anti-His tag antibody and/or target-specific antibodies and the lysate derived from HEK293 cells transfected with the empty expression vector was used as a negative control.
<b>Molecular Weight</b>	Recombinant protein product has a calculated molecular mass of 17. The actual molecular weight may increase slightly due to the potential post-translational modifications (PTMs).

### Specifications

---

<b>Format</b>	Lyophilized powder
<b>Formulation</b>	Lyophilized from a 0.2 µm filtered solution in PBS (pH 7.4) containing mammalian cell protease inhibitor cocktail
<b>Concentration</b>	Determined by BCA protein assay
<b>Reconstitution</b>	Briefly spin the vial and bring the contents to the bottom prior to opening. It is recommended to reconstitute at 0.5 - 1 mg/mL with sterile deionized water.

---

## Shipping

---

The product is shipped with ice packs. Upon arrival, immediately store it at the temperature recommended below.

## Storage/Stability

---

- Use a manual defrost freezer and avoid repeated freeze-thaw cycles.
- Upon arrival, the lyophilized protein may be stored for 2 weeks at 4°C.
- For long term storage, it is recommended to store desiccated below -20°C in a manual defrost freezer.
- Generally, the shelf life is up to 12 months from date of receipt at -20°C or -80°C under sterile conditions.
- Following reconstitution, the protein may be stored for 2 weeks under sterile conditions at -20°C. For long term storage, it is recommended to make appropriate aliquots at -20°C or -80°C.
